

*Holding Company,
Technology Company,
Multi-Industry Conglomerate*

Laylor Corporation

PROBLEM

Users' Peer to Peer (P2P) and Business to Business (B2B) accounts being flagged and shutdown due to suspicious activity claims because of consistent and repetitive transactions received and/or sent. Even after verification processes.

Delays

Delays of verification processes and hard to operate complicated systems just to receive and send money in large amounts nationally and internationally.

Lack of Speed

P2P apps move entirely too slow and are inefficient in a growing global market.

Untapped Geographies

Multiple underdeveloped countries with no international e-commerce P2P infrastructure connected to thriving economies with a huge customer and investor base.

Simplify

A financial service that can be used globally to transfer money securely amongst users. A system that's user friendly and efficient. So easy that it can be used by a millennial or a senior citizen.

Invest

Allow people across the globe the ability to invest in the world's most innovative companies in the NYSE, NASDAQ, etc. Also invest in Bitcoin and other cryptocurrencies right from their palm.

Blockchain Technology

Send, and receive bitcoin fast, securely, and safely to and from any crypto wallet in the world.

THE UTOPIA

We'll be able to provide speed, expansion, growth, and opportunity with an easy-to-use system.

Yo' Bread

*A P2P, B2B Digital Wallet.
A worldwide application
that makes money
transfers and investments
faster, easier, and more
secure.*

2021

March 16 2021
Laylor Corporation
was founded as a
C Corporation in
the state of South
Carolina. A
company with IPO
aspirations.

2022

Developed First 2
apps: Laylor
Flames Ent. And
Laylor Flames Live.
Obtained a transfer
agent. The genius
blockchain
innovator [Blocktransfer.io](https://blocktransfer.io)

2023

Yo' Bread
Development
Begins, company
receives an A+
rating as an
Accredited
Business by the
BBB, and
company is officially
registered with the
Securities and
Exchange
Commission

2024

First ever
crowdfunding
campaign to fund
Laylor Corporation
and it's Yo' Bread
Development

Yo' Bread

Yo' Bread was started because of all the technical issues and complications family, friends, associates, and customers everywhere are facing with current P2P and B2B platforms nationally and internationally.

TIMING

Perfect Storm

Everything is aiming towards a future of new technology. The SAM for Start-up Tech companies is over \$2 trillion dollars in the US and almost \$10 trillion dollars worldwide. It's expected to triple in the next 5 years.

Boundless Market

With the mass adoption of smart phones and smart devices continuously rising, the Peer 2 Peer U.S. market is growing with unstoppable momentum. U.S. Estimated a revenue of \$100 billion dollars combined. Worldwide almost a trillion dollar market.

TRACTION

In gold is just organic growth. In green is investment growth. At best we'll be a multi-million dollar company year one. By year 3 or 4, we'll be a multi-billion dollar company with a multi-billion dollar service.

GLOBAL MARKET

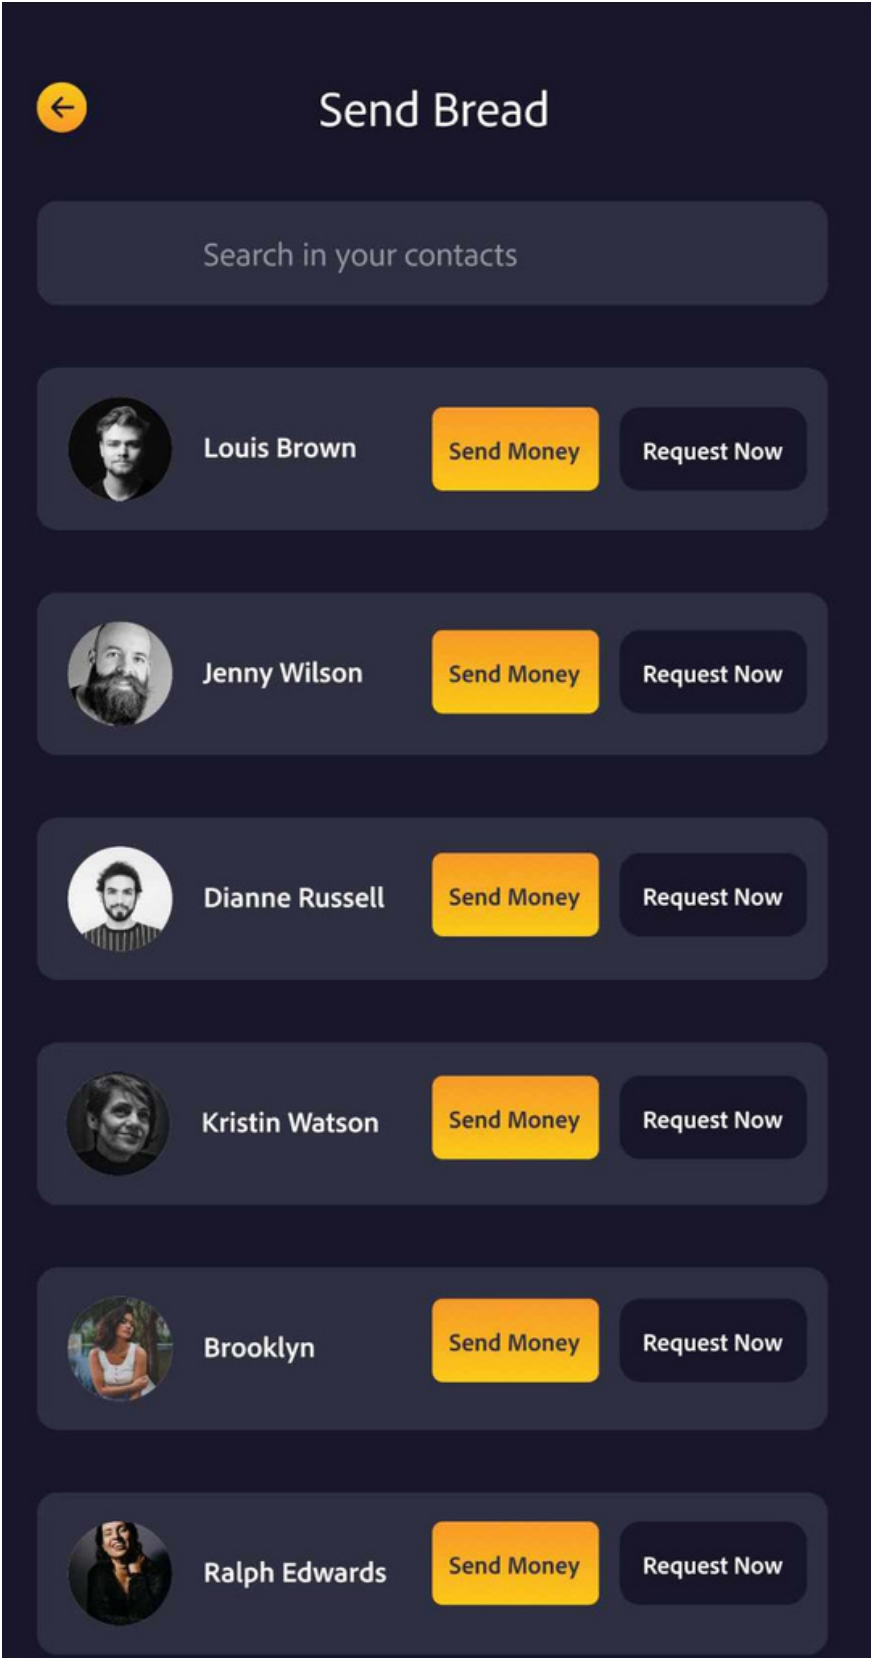

*Users from every
country and continent
across the globe.*

No discrimination or bias

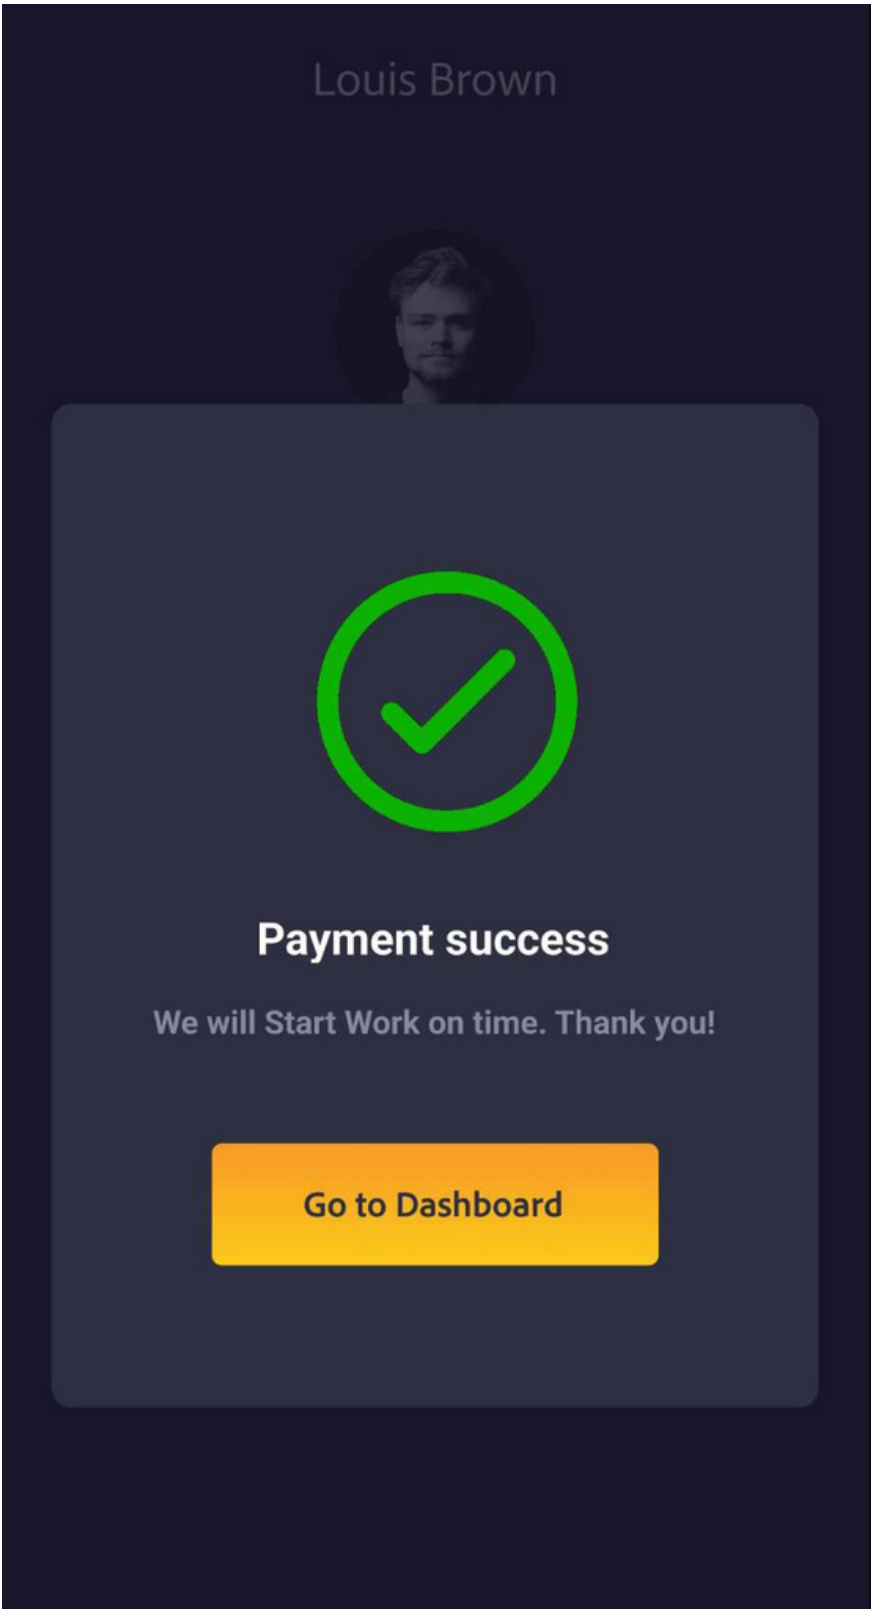

*No matter your background, race,
geographic, language, or culture.*

Tech savvy or not

*For users and business owners that
are not tech savvy, this is a simple
platform. Easy to use.*

***Send and receive
cash and
cryptocurrency fast,
easy, and secure with
Yo' Bread.***

***Scam proof, no flags, no
frozen accounts, and no
suspicious activity.***

**** As long as the money that's transferred to the
app by users is approved by their banking and/or
debit card institution, our users can make an
unlimited number of transactions with no delays.***

Peer 2 Peer Market

*The market is growing
extremely fast. There is still
a large portion of
underdeveloped countries
without a fast, secure,
simple way to transfer
money internationally and
within their own
infrastructure*

Competitive Advantages

SPEED

Our transactions take place in a matter of seconds.

SIMPLE

No complicated processes. Easy-to-use.

ALL IN ONE PLATFORM

We can transfer money and crypto to anyone in the world in seconds. Users can also save their money, invest in the stock market, and invest in crypto.

NO FEAR

We will go into markets in damaged and underdeveloped economies, countries and places that are high risk. A mass smart phone adoption and desire for e-commerce and fast money transactions will bring us decades of success.

Competitor Approach

GLOBAL OFFICES

We will have offices and virtual addresses in multiple countries ran by natives of the territory. Then start advertising, marketing, and getting people to use the app

SMARTPHONES

We will reach our customers by making our app available on all App stores. A worldwide referral system to spread the exciting news.

GROWTH, AND EXPANSION

Instead of trying to avoid businessmen/businesswomen, rising companies, investors, and respected people in these different international communities. We work together and develop sponsors and partnerships that'll help us tap into these entire Peer 2 Peer money transfer markets while helping their underdeveloped economies grow in the process.

Business Model

We'll make money from transaction fees and transfers. Below is just one of many. (Instant Transfer Fee)

**2.5 Million
users**

Just 1% of the U.S. Market

**\$2.50 per
instant
transfer**

\$6.25 M

Business Model

We'll make money from transaction fees and transfers. Below is just one of many. (Instant Transfer Fee)

**300 Million
users**

Just 1% of the Global Market

**\$2.50 per
instant
transfer**

\$750 M

The Team

Tammy Harris
Founder and CEO

Angel Laylor
*'Pseudonym' Corporate
